HANGMAN HATS · HAT BAR EVENT

How the Hat Bar Works

Refined when it matters, Rowdy when it don't.
Size it. Shape it. Wear it home.

There's a working hat bar at this event. **You pick a hat, we shape and size it to your head while everyone watches, and you walk out wearing it.** No experience needed — you just have to know what you like (or let us help you figure it out). Here's how it goes.

1 Belly up & pick your hat

Look over the racks — straw and palm for warm weather, 3X wool felt for the classic look, kids' sizes too. Some are open crowns we shape from scratch; some come pre-shaped.

Can't decide? Try a couple on. Everyone looks good in a hat — you just haven't found the right one yet.

2 Get sized to your head

We measure your head, then use hot steam to adjust the hat so it fits *you* — not just your hat size. If you know what fitted size you wear, tell us; if not, we'll walk you through it.

3 Shape it, live

This is the show. On our **in-stock open crowns**, we steam and hand-shape the crown crease and brim right in front of you — a classic cattleman, a pinch front, a big flat brim, or that hat you saw on a show and thought "DANG!" Show us a photo or just point.

Pre-shaped hats: we can make moderate adjustments — mostly to the brim — but the crown stays as built. You guide our hands either way; bring a friend for a second opinion, or ask us.

4 Church it up

Swap the hatband (ribbon, horsehair, leather, beads) and tuck in a feather, playing card, or Texas toothpick — whatever makes it yours.

5 Wear it out — or brand it overnight

Want your initials, a brand, or a paw print burned in? **We aren't branding on site at this event.** Pick your marks from our 100+ irons, leave the hat with us, and we'll brand it overnight and bring it back for pick-up the next day. Up to three brands are included. Skip the branding and your hat leaves with you tonight, on your head.

EVERY HAT INCLUDES

HOW LONG DOES IT TAKE?

Plan on roughly 20–30 minutes at the bar once it's your turn. The line moves, and watching everybody else's hat come together is half the fun.

HOW DO I PAY?

Guests pay for their own hat and add-ons at the bar unless your host tells you otherwise. We take card and cash. All sales are final — your hat is shaped to you, and nobody else.

TAKING CARE OF IT

Pick it up by the brim, not the crown. Set it down upside down on the crown. Keep wool felt out of the downpour — it's weather-resistant, not an umbrella.
